italtec GHANA LTD

Italtec Ghana Ltd.

Italtec: Playing an important role in upgrading, educating and supporting the mining entities

ITALTEC is the most important Mining support entity functioning in Ghana. The basic purpose of initiating ITALTEC is to offer support to all the Small and Medium sized Mining companies in terms of providing with state of the art equipment's, technology and help in reinvesting in them to purchase Gold on a continuous basis. This has helped many a mining company to consolidate and establish their respective businesses in the African country.

ITALTEC also helps and partners with the respective mining companies to many other services other than listed above like increasing their knowledge base, upgrading the said mining entities in terms of Market information, Training and development and information. This partnership has gone a long way in building the reputation of ITALTEC as an ardent support factor for the small and medium sized mining entities. ITALTEC thus believes in sharing the much required information and communication that has been gained through their years of experience in the Gold market and being a leading advisory company in the Mining environment. Knowledge programs like understanding the OECD guidelines, taxation and policies and imparting techniques to eliminate hazardous mining practices and elimination of dangerous chemicals during the process of mining are some of the key area's that makes ITALTEC a company of repute. Apart from all of the se, it also becomes important to educate the mining companies on the various processes that can be used for optimum production from a articular mine. While adhering to International guidelines it also becomes ITALTEC's endeavor to support optimum quality production from each of the mines who look at them for support and know how.

Italtec Ghana Limited is wholly Ghanaian registered operating company under the Ghanaian Companies Code (Act 197) of 1963. Its primary business is the purchase and export of Gold. Italtec Ghana Limited started from a humble beginning in 1993 having been registered as an import and export business. The company's director and current 100% shareholder is Mr. Kwame Ofei. Italtec employs the concept of buying centres to guarantee a steady stream of gold supplies from purchases on a daily basis. The company currently operates 17 wholly established gold buying centres in all the major mining towns, fully equipped with state-of the-art water density specific gravity weighing scales.

Italtec Ghana Limited operates on the following terms of

contracts which are very simple:

- We supply gold on an annual renewable contract revolving.
- See our website for details : www.italtecgold.com

Italtec Ghana Limited's method of business uses the service

Italtec Ghana Limited's method of business uses the service technique which employs the distribution and servicing of mining equipment, power generating sets, and supplies of mining equipment The Program assures the delivery of such mining equipment to the various mines and workers under our trade rule by which we supply them with sluice boxes, washing tables, including standby power generating sets as well as deep-well water pump to guarantee them operating efficiency.

All these are done and leveraged against the continuous supply of gold. This method also guarantees us the right of purchase and protection from all the participating mines who work in our service and support program.

Gold is assayed in all our purchasing centres, we supply smelting furnaces made of gas and electric blowers with smelting crucibles weighing between 1 to 2 kilograms per smelting pot. The smelted gold is weighed in the Mettler Toledo specific gravity weighing scales which method has a relative accuracy of +/-0.005% making it the best field testing method.

Export Markets

Italtec Ghana Limited ships gold to the following countries:

- UAE (Principally Dubai) • Italy • Australia • Turkey
